**Only Fifty Passengers Carried By Connemara When She Collided With Retriever In Irish Channel—Crews Numbered About 250 All of Whom Are Believed to Be Lost**

[Associated Press Telegram]  
London, Nov. 4.—The London and Northwestern railway steamship Connemara, bound from Greenore to Holyhead with passengers, collided with another vessel and it is feared the death toll is about 100.

The Connemara collided with the steamship Retriever in the Irish channel last night. Both vessels were sunk.

So far as is known there is only one survivor from both vessels. The railway company say it is unable to state whether any Americans were aboard these vessels. They seldom carry saloon passengers.

A Lloyds dispatch from Belfast says the collision occurred off Carlingford Lough, an inlet on the Irish coast between the counties of Down and Louth. The Retriever was inward bound.

A few bodies have been washed ashore on the County Down coast. The dispatch says it is feared 300 lives have been lost.

The marine superintendent of the London and Northwestern railway said that so far as he knew there were only 50 passengers on the Connemara. Her crew numbered 31.

The two steamers came together in one of the worst gales ever known in the Irish sea. The Connemara carried passengers and a cargo of cattle from Greenore, Ireland, for Holyhead, Wales. The Retriever was laden with coal.

Of the fifty passengers and crew of 31 aboard the Connemara there is only one survivor. It is virtually certain there were no Americans on board. The entire crew of the Retriever was lost. Many bodies are being washed ashore on the Irish coast. Numbers of cattle also are being washed up, some alive.

The weather was so rough that it would have been impossible to launch any boats, even had time permitted.

The Connemara, 1106 tons gross and 272 feet long, was built in Dumbarton in 1896. The Retriever was 190 feet long, of 674 tons gross and was built in Goole, England, in 1909. She was owned by the West Coast of American Telegraph Co. of London.

A steamer service is maintained by the London and Northwestern railway between Holyhead, Wales, and Greenore, Ireland, a distance of about 80 miles across the Irish sea.

New York, Nov. 4.—The completion of negotiations with the Russian government for a \$50,000,000 five year 5-1/2 per cent loan by a banking syndicate headed by the National City company, which is controlled by the National City Bank, brings the total borrowings here of foreign countries with the exception of South America to more than \$2,000,000,000.

Part of the new Russian loan it is understood, will be used in paying for a portion of \$50,000,000 railroad equipment order placed with American manufacturers about two months ago.

Associated with the national city company in the negotiations are J. P. Morgan, the Guaranty Trust company, Kidder Peabody and company, and Lee Higginson and company.

## ANTI-SALOON MEN CLAIM 4 STATES WILL JOIN DRY

[Associated Press Telegram]  
Westerville, O., Nov. 4.—Predictions that Michigan, Nebraska, S. Dakota and Montana will vote dry at Tuesday's election were made here today at the national headquarters of the anti-saloon league by Wayne B. Wheeler, attorney for the league. "Montana will go dry two to one," said the statement, which continues that in S. Dakota the dry vote will be nearly as large. "Michigan and Nebraska are certain to go dry," said the statement, "although by narrower margins than South Dakota and Montana."

Mr. Wheeler's statement also predicts that the dry representation in congress will be materially strengthened by the election of new congressmen.

**John M. Parker Tells President That He Will Get Strong Support In Western States—Address This Afternoon Will Sum Up Situation and May Reply to Colonel Roosevelt**

[Associated Press Telegram]  
Long Branch, N. J., Nov. 4.—President Wilson at an "old home day" celebration here today planned to close his campaign for re-election with an address to his fellow citizens of New Jersey. Special trains were engaged to bring to Shadow Lawn residents of Jersey City, Trenton, Newark, and other sections of New Jersey and the Wilson managers said many more Democrats would come by automobile.

To his friends here early today the President expressed confidence over the outcome of the election Tuesday. He was expected to sum up his views of the situation in his afternoon address and also to devote part of the speech to the New Jersey situation.

The attack made on the president last night by Colonel Roosevelt went without official notice here today although it was said Mr. Wilson might allude to it indirectly this afternoon. Thus far he has mentioned neither Colonel Roosevelt nor Mr. Hughes by name in any of his speeches.

President Wilson was assured today by John M. Parker, Progressive candidate for vice president that Progressives throughout the middle west and western states were coming to the president's support and that the elements of a landslide are appearing.

C. W. Watson, Democratic committeeman from West Virginia telegraphed the president saying a careful canvass of his state shows it would go Democratic. Messages predicting victory also were received at the executive offices here from Ohio.

### G. O. P. RESORTS TO TRICKERY TO KNOCK EX-GOVERNOR COX

(Special Telegram.)

Columbus, Nov. 4.—Thousands of members of the Ohio Automobile association await formal repudiation of a postal card campaign for Governor Willis and against former Governor Cox signed by L. A. Correll as chairman of the publicity committee. The statements of the card have already been denounced as false and the implications as malicious. Democratic managers are awaiting denunciation of the work before deciding to advise every Democratic member to withdraw from the association. Former President Chas. Jones quickly denounced the card as a rathorack, saying that it was not authorized by the association. It developed that L. A. Correll is a clerk in the office of the Republican State Chairman Hatfield, who was brought to Columbus to do campaign political work and the statement was made that he is not only not a member of the Automobile Association, but is not known even to own an automobile.

Chairman W. L. Finley of the Democratic State committee is withholding judgment awaiting action of the association executives but desires to call attention to the series of rathoracks being used by Republicans at the close of this campaign.

Two bodies of unidentified negroes have been brought to the surface.

Rescue crews from government and state mine bureaus are at work trying to reach the men. Two white men and three negroes escaped injury by working their way through the debris which the blast caused in the opening.

The explosion occurred below the eighth level of the mine and was of such force that the mouth was considerably damaged and a number of cars were wrecked on the mine tipples.

## THE HIGH COST OF LIVING HITS THE BEAN BAG MAKERS

[Associated Press Telegram]  
Chicago, Nov. 4.—The bean bag, which for many years has been a feature of play in the public schools of the country, is today the latest victim of high prices. A bean bag maker proposed to a committee of the Chicago board of education to substitute cherry pits for the old fashioned navy bean in the manufacture of the bags.

The committee deferred action on the proposal.

## FAIR WEATHER IS PREDICTION FOR ELECTION DAY.

[Associated Press Telegram]

## MUST MAINTAIN HONOR TO GET PEACE—HUGHES

[Associated Press Telegram]  
New York, Nov. 4.—Charles E. Hughes, in the first of a series of five noonday campaign speeches here today declared that "rights cease to be rights if they are not enforced," and "that there will be no lasting peace if the nation's honor is not maintained."

"There has been of late, it seems to me, a growing tide of sentiment in this country," he said. "The American people know very well that policies are essential to their welfare. They are not likely to be deceived by an delusive statement with respect to either peace or prosperity."

"There will be no lasting peace if the nation's honor is not maintained. There is no lasting security unless American rights are fearlessly maintained throughout the world. Our peace depends on the confidence and esteem which we secure and hold by justice, firmness, by courtesy and by the manifestation of that courageous and indomitable spirit which gave us our country and preserved the integrity of our country."

"That is not the path to war; that is the way to maintain self respect. Rights cease to be rights if they are not enforced."

"It is not that we should have a policy of aggression, it is not that we should make a bragart assertion of our claims, that we should go through the world boastful or truculently; but it is that wherever our flag flies the American citizen who is lawfully pursuing his work should know that it is symbol of full protection to him, exercising his rights wherever he may happen to be whether it is on land or on the high seas."

"There are those who attempt to make political capital out of prosperity we now enjoy. Every one knows how suddenly it arose and how suddenly it is likely to depart. Our friends on the other side made very eloquent promises. The promises they make now could not be more eloquent than those they made four years ago."

## WASHINGTON MAY ASK GERMANY TO KEEP WAR AT HOME

[Associated Press Telegram]  
Washington, Nov. 4.—Reports that the Deutschland will be consigned back to Germany by the war submarine U-57 have not been confirmed here officially and in some quarters such a step is regarded as improbable as it has been contended that a convoked ship takes on the warlike character of her convoy and cannot claim the immunities of a peaceful merchantman.

[Associated Press Telegram]  
Springfield, O., Nov. 4.—An afternoon newspaper here receiving Associated Press dispatches is planning to distribute election returns Tuesday night in an unique manner. ## MIDNIGHT

### Will See the End of the Political Campaign by National Candidates

### WILSON CLOSING AT HOME

[Associated Press Telegram]  
New York, Nov. 4.—Candidates for the presidency and prominent campaign orators in general will make their last spoken appeals for votes today. Sometime around midnight when the last cheer has died away, the last red fire has been burned out and the last parader had gone home, the national campaign will be virtually over.

Charles E. Hughes ended his political travels yesterday but the last day of his campaign is one of the hardest. He makes five speeches here this afternoon and will deliver his final address at a rally in Madison Square Garden which will close the greatest Republican rally of the campaign in New York City.

President Wilson at Long Branch will make his last speech before an audience from his home state. Every democratic county organization in New Jersey will send delegates to Shadow Lawn.

Both candidates will spend the two days that intervene before election quietly. The President at Shadow Lawn and Mr. Hughes at the hotel where he has made his New York headquarters since he left Washington. They will receive the returns at these places.

J. Frank Hanly, the Prohibition presidential candidate will reach his home in Indianapolis tonight after a final day of speechmaking through Indiana. Since Sept. 8, Mr. Hanly has travelled nearly 20,000 miles through 34 states.

The Socialist candidate, Allan L. Benson, who has made campaign speeches in almost every part of the country is today in Kansas City, Mo.

Mr. Hughes, the Republican candidate holds the record for campaign journeys. When he reached New York yesterday he had made four distinct trips, which since August have carried him through thirty-three states and a distance of about 28,000 miles. None of the President's trips were as long as those of his rival and most of them were made to some specific point for the purpose of delivering one principal address.

President Wilson's campaign has had the assistance of his cabinet members and of Vice-President Marshall, while Mr. Hughes enjoyed the unique distinction of having speeches made for him by two former occupants of the White House, William H. Taft and Theodore Roosevelt. Colonel Roosevelt made his last speech here last night.

The increase in the number of states where women may vote for president this year has given women a greater part in this campaign than ever before. The most extensive campaign trip ever undertaken by feminine political workers ended here last night when a special train brought back the women who have been travelling through the country to win votes for Mr. Hughes. They have journeyed 11,700 miles and addressed 131 meetings in twenty-eight states.

# POMERENE SENATOR WHO HAS MADE GOOD

Cleveland, Nov. 4.—Today's Cleveland Plain Dealer under the caption "Pomerene, senator who made good," thus editorially refers to the importance of re-electing Pomerene next Tuesday.

It is important to the country not only that President Wilson shall be re-elected, but that a congress is chosen which will co-operate with the President in carrying forward the great constructive work about which the progressive hopes of the nation are centered. For Ohio this question centers in the candidacy of Senator Pomerene.

For years the senate of the United States was the stronghold of reaction. Aldrich, Murray Crane, Reed Smoot, Boies Penrose, Gallinger—such were the bosses of the old senate. Aldrich is dead. Crane is out of public life, but Penrose and Smoot and Gallinger remain.

And these are the men who would immediately and automatically assume leading roles in the senate of Tuesday's election. Penrose would head the tariff-making committee, Smoot would head the public lands committee, Pork Barrel Warren of Wyoming would be chairman of appropriations. It would be a return to Old Guard government—a swing backward to the days of Wall Street domination.

Ohio voters will choose between a senator who stands for the new deal in government and a would-be senator who upon election would immediately take his place in the group of reactionaries which for so long made a mockery of government in the senate—between Pomerene and Herrick. Pomerene typifies Mark Hannaism, which controlled the old senate, and with which Herrick was strongly allied.

President Wilson in his fight against privilege in his effort to free the nation from the selfish domination of Wall Street, has had no more efficient helper in the halls of congress than Senator Pomerene. \* \* \* Mr. Pomerene has been sound upon labor, sound upon conservation; his vote was on the side of international good faith in the tolls controversy; he did more than almost any other member of the senate for the federal reserve bank act; he worked for the abolition of child labor and for rural credits. \* \* \* Myron T. Herrick in his fight to unseat Mr. Pomerene represents the money interests of the state. \* \* \* Albee Pomerene has earned re-election.

## FORMER LICKING COUNTY MAN AT NOVEL BANQUET

John A. Montgomery, a former Licking county man, was one of the honored guests at a banquet recently given in Decatur, Ill., which established a precedent. On this occasion nearly 300 men and as many boys sat down together the affair being known as the "big" and "little brother" banquet.

The size of the affair was vast and during the evening the whole audience came to its feet to honor John A. Montgomery who is called in that city, "the father of the more beautiful Decatur."

Mr. Montgomery is the son of Mr. and Mrs. H. A. Montgomery, and he was reared on a farm in Licking county. In the early eighties he went to Illinois where he married Miss Addie Lewis of Macon. He spent four years on a farm there and then took up the grain business. He was always a student and entered Ann Arbor law school, from which he was graduated in 1909. Decatur became his home and he practiced law there for eight years. During this time he was interested in real estate and the civic improvement of his city.

He made a business trip into southeastern Missouri and while there he saw the opportunities for developing the land and feeling that "call of the country" so strongly that he decided to go there to live. His farm is now pointed out as an example of the possibilities of the country.

Decatur is a progressive Illinois city and the honor it has shown Mr. Montgomery in giving him the title of "Father of the more beautiful Decatur" and calling him from his home in Dexter to be present at this big brothers' banquet is an evidence

THE WHITE HOUSE  
WASHINGTON

SHADOW LAWN,  
October 31, 1916

My dear Mr. Wasson:

Thank you warmly for your letter of October twenty-third. The reason you

give for supporting me touches me very deeply, that you should feel when you see "the

boys and mother" together in your home circle that I have preserved the peace and happiness

of the home. Such a feeling on the part of my fellow-citizens is a sufficient reward

for everything that I have done.

Cordially and sincerely yours,

## FARMERS FAVOR BUREAU AFTER HEARING TALKS

The farmer's meeting held last night at Granger's hall in Vanatta, was attended by a large number of farmers living in the vicinity of Vanatta, who were both interested and opposed to the establishment of the Licking County Farm Bureau Association.

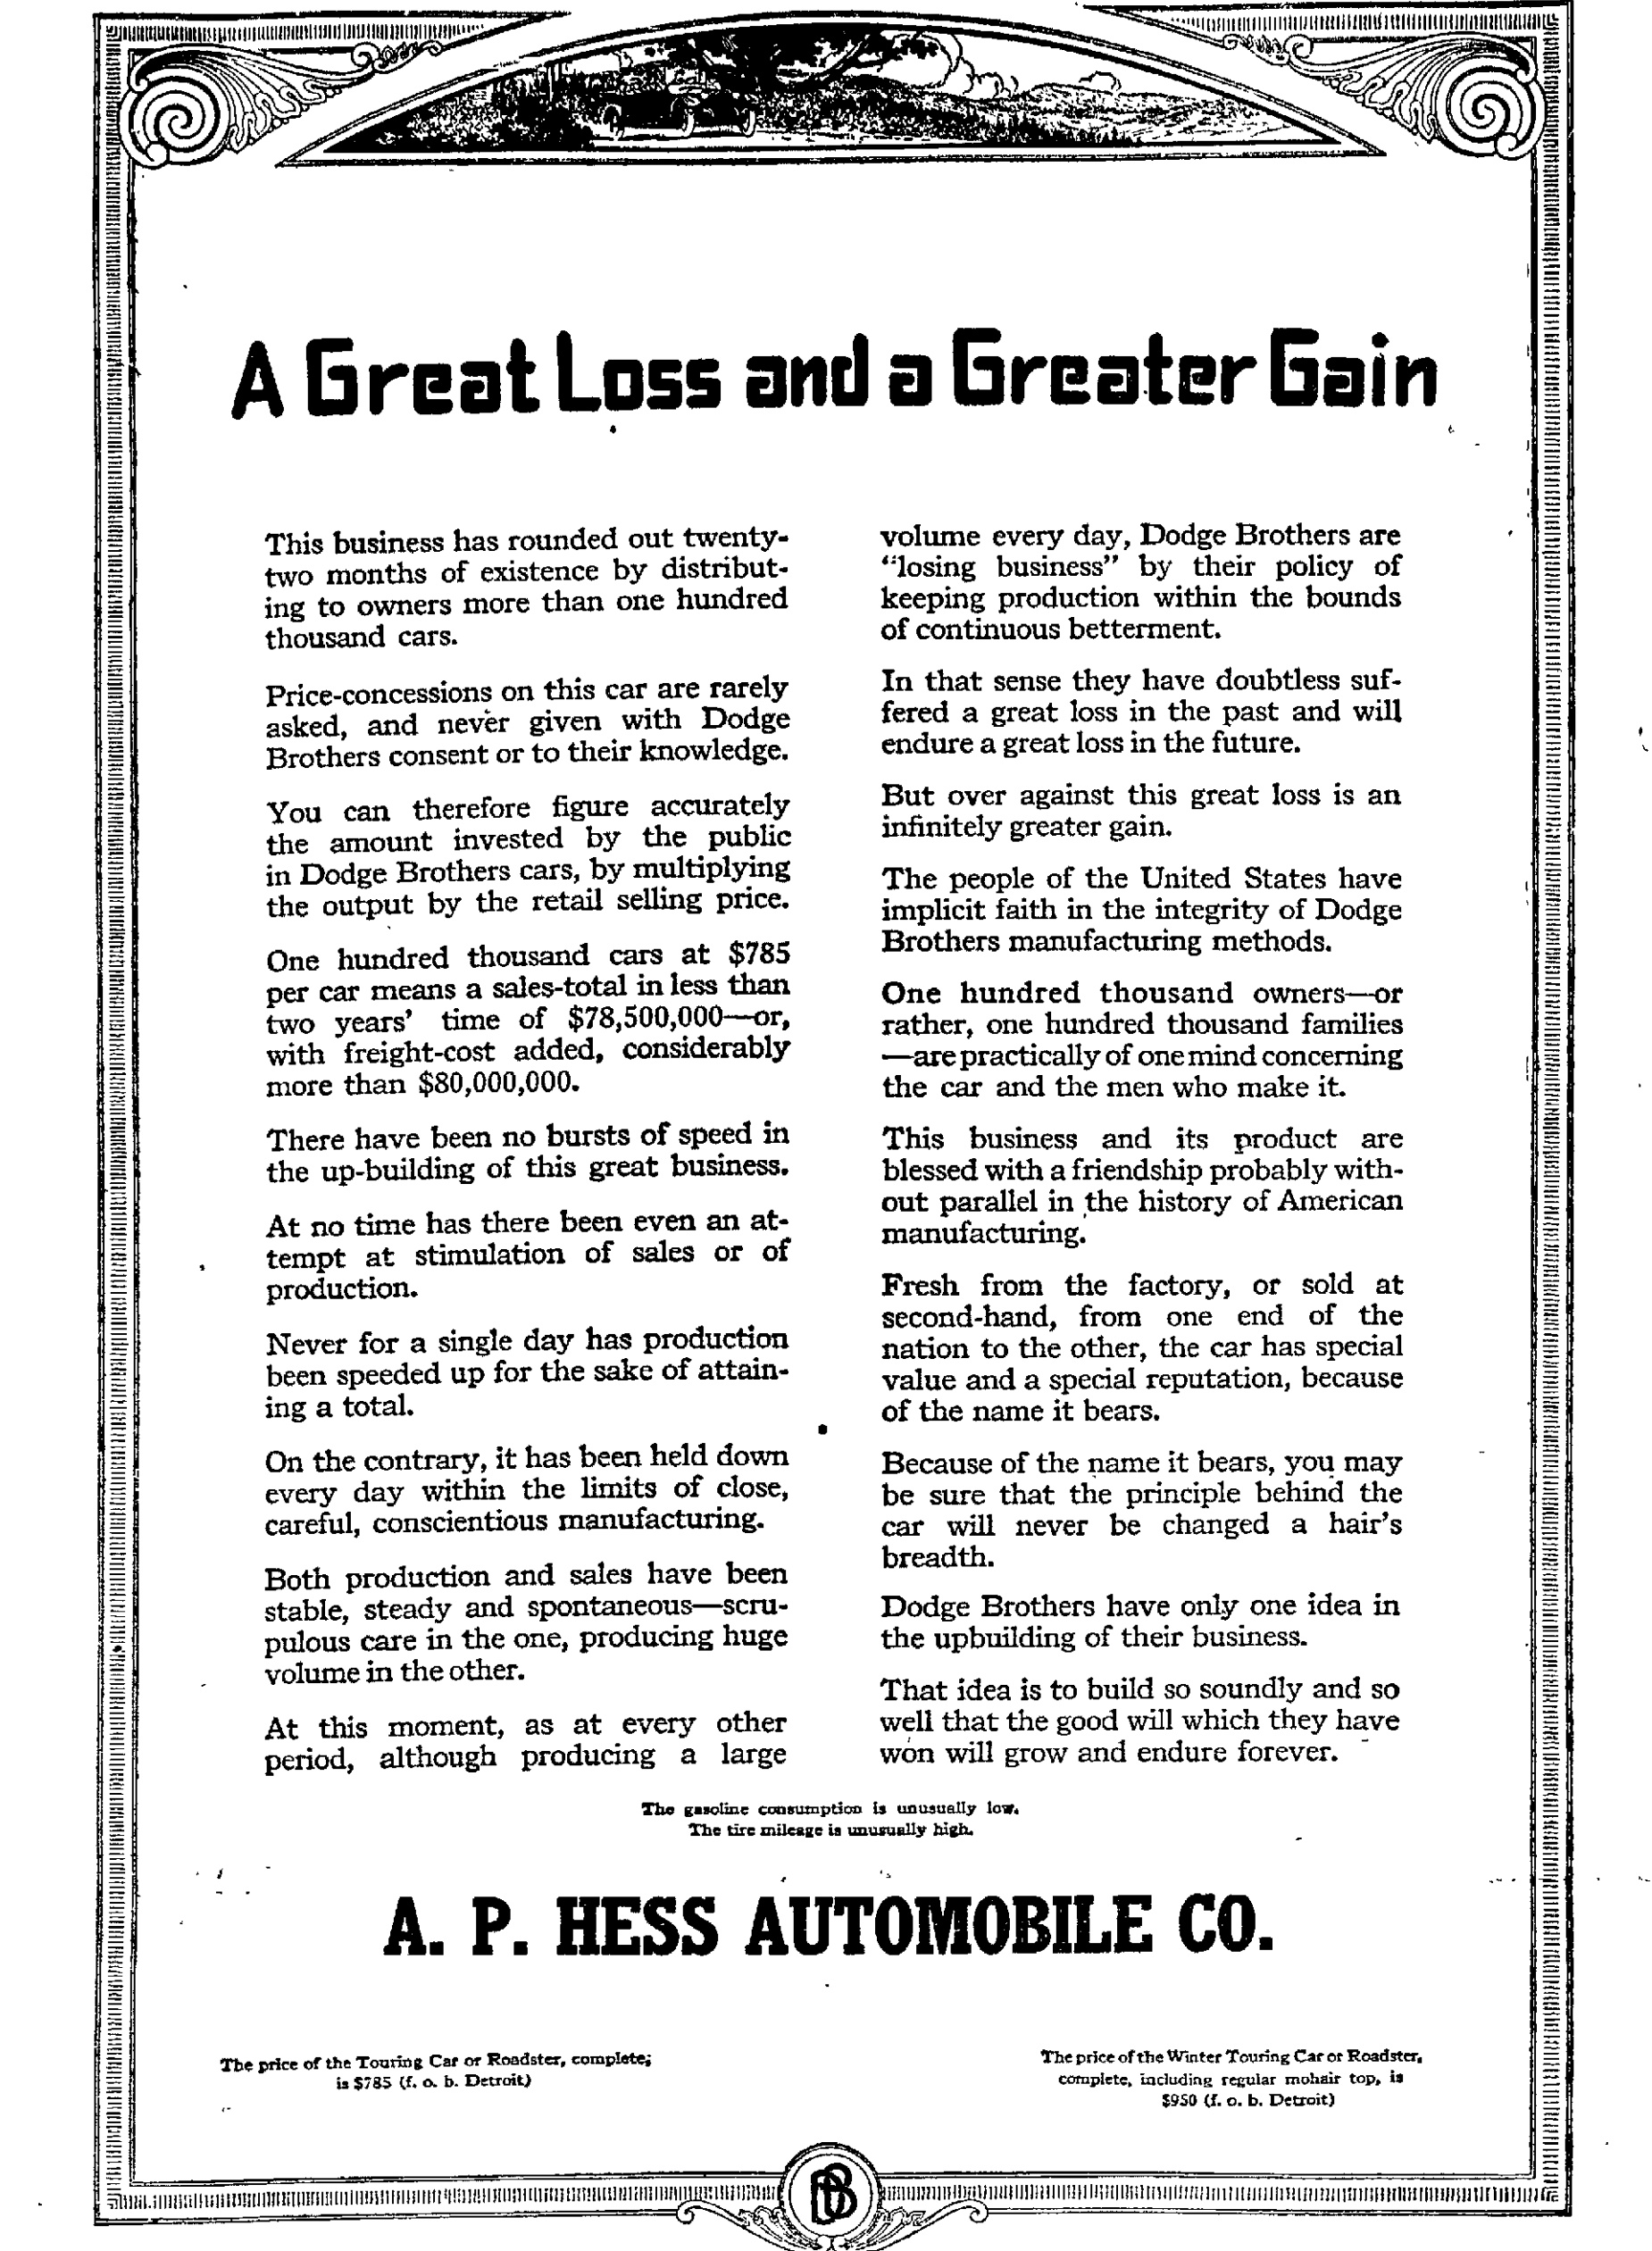

P. A. Laylin of Norwalk, O., past master of the state Grangers, addressed the meeting speaking in favor of the farm bureau. Mr. Laylin pointed out to his audience that the state Grangers were the fathers of the farm bureaus in Ohio, and that it was a Granger's duty to take the lead in securing a bureau for Licking county.

Other talks were made by Homer C. Price, Attorney A. A. Stasel, William C. Hall and J. S. Graham, all of the Agricultural bureau of the Newark Chamber of Commerce.

The opposition felt by some of the farmers was swept away when the proposition was properly explained to them, and before the meeting adjourned most of those present signed a card for membership into the new organization at 1 per year. This was one of the first educational meetings to be held in Licking county toward forming the farmers organization at \$1 per year. This and the temporary officers of the Licking County Farmers' Association were highly pleased with the result.

It's a poor rule that won't work both ways, in spite of the fact that the golden rule doesn't always.

This business has rounded out twenty-two months of existence by distributing to owners more than one hundred thousand cars.

Price-concessions on this car are rarely asked, and never given with Dodge Brothers consent or to their knowledge.

You can therefore figure accurately the amount invested by the public in Dodge Brothers cars, by multiplying the output by the retail selling price.

One hundred thousand cars at \$785 per car means a sales-total in less than two years' time of \$78,500,000—or, with freight-cost added, considerably more than \$80,000,000.

There have been no bursts of speed in the up-building of this great business.

At no time has there been even an attempt at stimulation of sales or of production.

Never for a single day has production been speeded up for the sake of attaining a total.

On the contrary, it has been held down every day within the limits of close, careful, conscientious manufacturing.

Both production and sales have been stable, steady and spontaneous—scrupulous care in the one, producing huge volume in the other.

## LOW SCORES EXPECTED IN CAR SHORTAGE

(ASSOCIATED PRESS TELEGRAM)  
New York, Nov. 4.—Close scores are expected today in at least two of the eastern college football games. Yale vs. Colgate at New Haven and the Army against Notre Dame at Westpoint. Last year the New York state team defeated Yale 15 to 0. Neither team has met defeat this season. Notre Dame has to her credit a score of 182 points in four games without score against her and is rated fully as strong as last year. The Army however, has proved itself a formidable aggregation this season.

Trade authorities say that since the first of October pig iron has advanced an average of \$2.50 a ton or more than one-half as much as it advanced during all of 1915. It is also reported that Virginia iron, the first to appear in this district for a number of years has been offered here during the week.

## HEAVY FIGHTING IN GALICIA; NO GAINS ARE MADE

London, Nov. 4.—Heavy fighting continues on the battlefields of Galicia and along the Rumanian frontier without pronounced gains for either side. In northern France the night was quiet along the French front.

Berlin reports French and British attacks yesterday in the Guedecourt Les Boeuifs and Courcellette sectors north of the Somme were repulsed.

The Austro-German forces have made little additional progress in their campaign against Rumania. Berlin announced the recapture of a position southwest of Predal which the Rumanians had taken November 2, but concedes the occupation by Rumanian troops of the Rosca heights southeast of Altschanz. Petrograd reports the advance of the Rumanians in the Jiu valley is continuing.

On the Russian front the Teutonic armies under Prince Leopold of Bavaria have taken some little additional ground from the Russians on the Narayuvka southeast of Lemberg in Galicia, Berlin announces.

## McDaniel and Zanesville Stars Will Clash Sunday At Moundbuilders Park

Tomorrow afternoon at Moundbuilders park, the McDaniel football team of this city will clash with the all-star Zanesville footballers, in the first two games inter-city series. The game will be called promptly at 2:30 o'clock.

Captain Johns of the McDaniel team has his players in good condition for the battle and predicts that Zanesville will be stopped. Zanesville players and fans, according to the Zanesville papers, are just as confident that they will win, not only tomorrow's game but the game at Zanesville two weeks later.

Paul Bowser, the world's middle-weight wrestling champion will be in the locals' lineup again and should be in condition to play a much better game than on his first appearance here several weeks ago, against the Barracks team of Columbus. In that game Bowser was one of the bright features despite the fact that he had not played football for six years.

John McCarty, a Newark boy who has put his home city on the baseball map, will be another star to oppose

the visitors and with Davis, Pfeiffer and Jackson, will show the visitors some real gridiron stuff. The rest of the McDaniel players, who have proven to be equally as great, in their particular departments of the team, will be in the game to back up the all-star back field.

Moundbuilders park has been arranged to accommodate the fans in a manner so all can see the game, and the largest crowd in the history of local gridiron sport is expected to be in attendance. This will be made possible by the intense interest now manifest in sports here and of the keen rivalry existing between Newark and Zanesville.

The Pottery town fans are coming to Newark in force to root for their favorites, so there will be plenty of spirit displayed when the referee's whistle sends the two teams together. The women are taking a keen interest, both in Zanesville and Newark.

The advance sale of tickets has been heavy and are still on sale at the McDaniel restaurant. The game will be finished in good time, assuring the fans of getting home early.

## FRENCH FLOWER SHOP OPENED BY HALBROOKS A NOVEL INSTITUTION

The French flower shop, a replica of the Parisian shop, with its attractive flower boxes and brilliant lighted was formally opened in East Church street, Saturday morning, by Paul M. Halbrooks. Associated with Mr. Halbrooks in the shop, which occupies three rooms, Charles S. Osburn has a seed and poultry display store.

The entire front of the shop is of glass with the quaint French windows and doors. Long flower boxes are placed beneath the windows and these have been filled with the little formal evergreen trees. A wooden canopy tops the windows and doors, is caught with heavy chains and lined with electric lights. The interior for the opening this morning was massed with a brilliantly colored collection of gorgeous flowers.

The flower shop is entirely of white enamel, the cases, large refrigerator, and interior of the conservatory which is just off the store in the back have the white finish. Large hanging baskets filled with roses, chrysanthemums and other flowers were suspended from the ceiling, and the conservatory held a profusion of potted plants, including the flowering chrysanthemums, roses, asters, and a wealth of greenery, in the beautiful palms and ferns.

Mr. Halbrooks came to Newark from Columbus four years ago and has had the Halbrooks greenhouse opposite Cedar Hill cemetery. He will continue his work at the greenhouse, and Mr. Lee Bidler who was formerly associated with Mr. Halbrooks in Columbus, and who has been with the largest floral concerns in Columbus, will be in charge of the French shop. Miss Hazel Slater will be in charge at the green-

house, and Mr. Halbrooks will oversee both places. A workshop has been arranged off the display room, where the pieces will be made up, a specialty being made of corsages, and bouquets for all occasions. A large ribbon cabinet has been placed in the store, where necessary for the attractive nosegays for which Mr. Halbrooks is noted, will be shown. The store was beautiful this morning and was visited by a large crowd, all visitors being given favors of flowers. On Sundays the shop will be closed but the greenhouses will be open and tomorrow the fourth annual flower show will be held at the greenhouse.

Mr. Osburn occupies rooms 14 and 16, and has large seed bins of the fumed oak. He will carry a complete line of seeds of all kinds, including flower, field, garden and lawn seeds. Included with the seed business an up to date line of poultry supplies will complete the stock. Mr. Osburn will also continue to operate his feed and grain business in Indiana street.

During the opening reception hours music was furnished by an Edison machine, and all were impressed with the beauty of the shop and gorgeous array of flowers.

## NEW LIGHT PLANT IS ABOUT READY FOR OPERATION

The new Municipal light plant will soon be in operation, the building soon be in operation. The building was installed. The plant would have been but in operation before this time but for the delayed shipment of an expansion joint. The factory has promised to supply this part within a few days. When this is received the switch board will be transferred to the new plant and the old one torn down. Nothing can be done along this line until the new plant is in operation and ready to furnish current.

The new machinery has been installed at the water works pumping station and will be operated in conjunction with that municipal department.

## REXALLS AND FITZ TEAMS USE SAME OFFENSIVE

When Referee Russell blows his whistle tomorrow afternoon at Wehrle Park it will mark the beginning of what promises to be one of the best football games of the year when the Rexalls clash with Fitzsimmons. Both teams are evenly matched as to weight, use the same style of offensive play and are playing for the 140 pound titular honors of central Ohio.

Fitz's gladiators are very well aware of the necessity of annexing this game to keep their record for this year untarnished.

The Rexall team, accompanied by 100 rooters will arrive at 10:50 on the Pennsylvania. Much interest is being manifested by the fans of the capital city and Rexalls will not want for supporters.

Fitzsimmons will practice Sunday morning at Wehrle Park. All players are urgently requested to be present not later than 10 o'clock.

3, 1879.

In marking the judicial ballot next Tuesday, remember the names Donahue and Johnson, candidates for re-election to the supreme bench.

Coroner W. L. Jackson is a candidate for re-election. He has no opposition, which is surely a compliment to his administration of the office.

Robert S. Shields is a candidate for re-election to the appellate court bench. Judge Shields' name will be on the non-partisan ballot. His record as a judge is ample evidence of his fitness.

Frank B. Dudgeon is widely known over Licking county and he is known as a "square" man. He has a fine record. He will make an able county recorder and he will be elected by a big majority next Tuesday, as he should be.

The people's money is safe in the hands of Will H. Miles. His books as county treasurer always balance to a cent, and everyone who visits the treasurer's office is treated with the greatest courtesy. Mr. Miles deserves a second term, of course.

The county survivor should be a practical engineer who possesses both education and experience. Combined with both of these qualifications, John C. Swartz has a pleasing personality and a devotion to duty. Vote for Swartz next Tuesday.

Those who desire to vote for President Wilson alone on the Democratic ticket should place their X in the circle under the rooster and then mark X before the name of each other candidate for whom they wish to vote. This is the only safe way.

When you meet your Republican brother who tells you he is going to vote against President Wilson, ask him how many sons he has and then ask him which one of these sons the mother has picked to go to war first, to be blown to pieces by shells and shrapnel.

For county prosecutor the Democracy presents one of the cleanest, brightest and most capable men at the Licking county bar—Charles L. Flory. If anybody has as yet given a good reason why Mr. Flory should not be elected, we have failed to hear it.

One of the most important offices in the court house is that of county auditor. Fred S. Wilson, who until recently was in the mail service, is the Democratic candidate for auditor. He will be the right man to elect because he is accommodating, capable and industrious.

J. C. Butt, Charles D. Lake, J. E. McCracken—these are the three men who aspire to the county commissionership on the Democratic ticket. They are pledged to an administration of economy. They favor good roads and a good business management of the county's affairs.

Atlee Pomerene in the United States Senate has stood shoulder to shoulder with President Wilson. The president needs a congress in sympathy with his views and purposes, and for that reason, if for no other, every supporter of Woodrow Wilson should mark his ballot for Atlee Pomerene.

James J. Hill, of Johnstown, loyal friend of the workman's compensation law, life-long resident of Licking county, a man of good business experience and judgment, is the party's candidate for representative. Governor Cox will need a legislature in sympathy with his political principles. Vote for Hill.

All signs point to a heavy vote next Tuesday, and it may be that a crowd will be present in the closing hours of the day. Avoid the possibility of losing your vote by voting early. The workers at the polls will appreciate it if you will make it a point to vote in the morning and as early in the morning as possible.

For clerk of the courts, the Democratic party presents the name of Leo T. Davis, a popular and capable young business man of Newark. Mr. Davis has a good record and he will carry to the office the qualifications and experience necessary to make him a competent official. Mark your ballot for Leo T. Davis.

The farmer who is getting more for a steer's hide today than he received for the entire animal under Republican protection is not very much worried. President Wilson has recognized the justice of hundreds of railroad workers who are still on the job carrying his goods to market and bringing back to him real money in return.

Never in the history of Licking county has the office of probate judge been occupied by a more competent, painstaking, conscientious, courteous man than Robbins Hunter. Judge Hunter was regularly nominated by the Democratic party at the August primary election. He has the party's support, though his name will appear upon the separate non-partisan judicial ballot.

William A. Ashbrook, always a popular man with the voters of this district, will receive a larger majority than ever next Tuesday, because he has stood by President Wilson and has proved to be a loyal friend to the old soldiers and their dependents. The Ashbrook widows' pension law recently enacted has added greatly to Mr. Ashbrook's already large number of warm friends.

Men who do not vote a "straight" ticket are very apt to lose a part of their vote if they are not very careful. This is especially true where more than one man is to be elected for the same office, as in the case of the county commissioners, three of whom are to be elected next Tuesday. The only safe way is to place an X mark before the name of each candidate for whom you wish to vote.

The name of the Republican candidate for the state senate is Miller, and the name of the Democratic candidate is also Miller. The Democratic nominee is J. Henry Miller, lawyer, farmer, public speaker and loyal citizen of Newark. Local pride should cause and will cause many to vote for J. Henry Miller. He stands for efficiency, honesty and fair play. As a state senator Henry Miller will be a credit to his county and the district.

Governor Willis, by his own reply to the query of the Ohio Federation of Labor, stands as the champion of the liability insurance interests in this state. He confesses enmity to the charge that has been made against him as the wrecker of workmen's compensation. Over the signature of its executive officers the Ohio Federation of Labor endorses the record of Governor Cox in this regard and says that he has signed their petition and that his position in behalf of labor is clear.

"Before the election two years ago, Mr. Cox was enforcing the laws of Ohio. He closed saloons in Cincinnati as well as other places on Sunday. His policy was to hit free and easy gambling. Cox was defeated for enforcing the law. Willis got the vote in Cincinnati. Willis is wise. He knows what Licking Cox. This year before election, Sunday booze is the fashion in Cincinnati. Willis wants more votes. This year before election Republican mayors permit blatant, disgraceful gambling in daylight on public streets. It's in the with the Willis policy. License issued to games that rob the twelve year old boy of money given by his mother. It's a high price to pay for votes. It's a part of the wreck crew toll. Ohio is in the dark ages. The Willis Chapter is written on black pages."—Putnam County Sentinel.

# Stampede in the Bread Line

It is too bad. Just when the Republican National Publicity Committee had every laboring man in Ohio headed for the bread line and marching double-quick, along comes H. M. Estabrook, president of the great Barney & Smith Car Company, and gives a statement to the Cincinnati Enquirer of the closing of contracts for 3175 freight and passenger cars, to be completed just as rapidly as it is possible to secure the required steel. It is a \$12,000,000 contract, and the cars are ordered by three of the greatest railroad lines in the country—the Chicago & Northwestern, the Atlantic Coast Line and the New York Central. Very evidently these three great roads are not thinking of going into bankruptcy because of the Adamson eight-hour law. All the howl of the Republican National Publicity Committee about impending ruin if Wilson is re-elected does not stop these great business industries for a single moment, although they are well aware that every indication points to his triumphant success at the polls.

For the first time in years Licking county voters next Tuesday will have the opportunity to vote for a Newark man on the state ticket. W. D. Fulton, lawyer, ex-member of the state legislature, alumnus of Denison, prominent business man of Newark, is the Democratic candidate for secretary of state. Help to boost Licking county by electing Mr. Fulton.

R. L. Patton has made no promises of any kind. He has selected no deputy. In fact he has not even considered the appointment of a deputy as yet, reports to the contrary notwithstanding. Mr. Patton is the Democratic candidate for sheriff. He is fitted in every way to fill the office and he will appreciate support at the polls.

## Receiving the Returns.

If one were looking for the most typical and picturesque phases of American life, he should surely include the election night crowd waiting for the returns. All over the country these gatherings are assembled. From the throng of people massed in some great city square, down to the little knot of citizens gathered at the rural telephone or telegraph office, the whole country is sitting up for the news.

Of course there are those calm and conservative souls who go home and go to bed at 10 p. m. as usual. Often they are people who are keenly interested in politics. But their regular habits are too firmly fixed to be suspended even for one night. In city surroundings it is a scene of cheers and horseplay, a general frolic in which the losing party are the butts of much persiflage. In thousands of hang-outs, little knots of political experts and workers gather and argue over percentages and forecast results. Over all there is a spirit of good nature and an absence of bitterness that is very creditable to the American temperament.

The Advocate will as usual give the election news on election night. The Associated Press wire in this office, a number of telephone lines and other facilities will be used to give the people the latest news.

## Hughes: Egoist.

(St. Louis Republic.)  
Charles E. Hughes is the most confirmed and extreme egoist who ever stood upon the stump in the United States.

We have not forgotten the First Citizen of Oyster Bay. Three brief months ago, we should have said that Roosevelt was unapproachable and unapproachable. But that was before Hughes appeared. Roosevelt had two subjects—himself and the universe. He found the latter interesting, often to the entire exclusion of the former. But Hughes is interested in but one thing. That is himself.

He tells us what kind of impression on foreign nations his policies—enforced with his matchless firmness and unflinching courage—would make; what care he would use in appointing diplomatic officials; what "cooking" success he has achieved as Governor of New York; how much he knows about laws and the making of them. His discussions of the present Administration are wholly for the purpose of setting his own unapproachable perfections against an appropriate background. He never discusses anything the Administration as a whole has done—not even those things he conceives to be mistakes. He talks only of the actions of the executive, selecting the particular things which contrast most luridly with his own ideas of that paragon of civic virtue and executive efficiency—himself.

Hughes never talks about his party. He passes over its history in silence. He omits all appeals to its principles and its ideals. He ignores the men associated with him. He ignores Republicanism—to talk about Hughes.

## It Can't Be Insulated.

(New York Times.)  
The Republicans are well scared about Ohio, where the Wilson sentiment seems to have declared itself strongly. The manufacturing cities, the richly cultivated centers, the farming districts, are all said to show the same feeling. The Adamson law among the workmen and railroad employees, peace and prosperity among all classes are proving unapproachable arguments against a change of Administration.

If this be a condition in Ohio, can it be regarded as merely local? Indiana and Illinois cannot be so insulated from the infection. If there is a powerful popular impulse to vote for Wilson in Ohio, why should it be less powerful in Illinois and Indiana? It is perhaps worth recalling that in 1892 Grover Cleveland carried Illinois and Indiana, got one electoral vote in Ohio, and was beaten by an average plurality of some 1,000 by other Electors. Immigration and the growth of manufacturing, especially in the northern part of the state, have, in regard to the Democratic strength among the Democrats, is not considering too narrowly in order to the political possibilities of the three States. In 1892 are to be proved again in 1916. Apparently the Republicans think that they can insulate Ohio. The great Wilson electric wave, if there is one, will not be turned back by State boundary posts.

## G. O. P. Logic.

(Philadelphia Record.)  
Some months ago it was our privilege to expose the absurdities of an argument put out in pamphlet form by a local ex-official, who took as his main proposition that prosperity was absolutely dependent upon protection and that whenever the Democrats reduced the tariff disaster immediately followed. To support this powerful thought, he instanced the business depression of 1897, under Van Buren, and that of 1898, under Cleveland, quite ignoring the fact that the latter occurred under the McKinley tariff. He also suppressed all mention of two of the most terrible panics in the country's history, that of 1873, under the Republican Morrill tariff, and that of 1907, under the Republican Dingley tariff. Having thus eliminated everything that would vitiate his so-called argument he proceeded to revel in the hard times of 1897 in order to show what dreadful people the Democrats of 1916 are.

This amusing production is recalled by an editorial in a Republican contemporary, entitled "Prosperity and Protection," which exhibits much the same line of reasoning. Our present prosperity is said to have "its origin and inspiration in causes purely temporary." A statement in direct contradiction to the opinions of such captains of industry as Messrs. Frick, Gary, Schwab, Davidson and others, who have explained why the present activity is bound to continue for a considerable time. The Underwood tariff is said to have failed because the customs revenues fell off under it, but good care is taken to suppress the fact that this decrease, which had been expected, has been more than made good by the proceeds from the income tax. Every good feature of the abounding prosperity of the past two years is ignored, while a vivid imagination is used to picture the horrors of the future unless a Chinese wall is erected against all foreign countries.

"In the face of these facts," it then states sternly, "the pretense that the present tariff is not a dangerous factor in international trade, an insult to the intelligence of the nation." This passes for convincing logic in G. O. P. circles. Cut out everything that belies your argument, and do some powerful guessing about the future or the hard times of 1897. Give the Democrats Hades, hurrah for Hughes, and there you are! Thus are Presidential campaigns waged by the Grand Old Party of Moral Ideas.

Doubts as to whether this country can be kept out of the next great war call attention to the protests of European governments that the present war is not nearly over.—Washington Star.

## The Advocate's MELTING POT

Truth is a gem that is found at a great depth; whilst on the surface of this world, all things are weighed by the false scale of custom.—Byron.  
As she walked out the wind blew a gale.  
And at once there went up a loud wail.  
"This horrible breeze  
That exposes one's knees  
That weatherman should land in jail!"  
—E. T. H.  
As she walked out the wind blew a gale.  
But her courage did not seem to fail.  
"Till a fierce gust of wind  
Made her skirt come unplanned.  
So she quickly perched up on a rail.  
"Still Rejected."  
—J. N. C.  
As she walked out the wind blew a gale.  
On the street she saw many a male;  
As her shoes were quite trim  
And her ankle quite slim.  
She affected the pace of a snail.  
—M. M. S.  
As she walked out the wind blew a gale.  
And her hose were as thin as a veil.  
She herself was quite thick.  
So 'twill not make her sick.  
She is built on a generous scale.  
—J. N. C.  
As she walked out the wind blew a gale.  
He stood where his sight could not fail.  
But when her skirt blew so high.  
He got dust in his eye.  
And she calmly passed on to a "sale."  
—E. H. C. Mt. Vernon.  
As she walked out the wind blew a gale.  
Which would feaze anyone that was pale.  
As the wind, with a gust,  
Gave her short skirt a thrust.  
You could see she was hardy and hale.  
—W. G. T.  
As she walked out the wind blew a gale.  
And her skirts all went up—like a sail.  
The men took one stare.  
But naught did they care.  
For her limbs were exceedingly frail.

As she walked out the wind blew a gale.  
The Advocate boy made a sale.  
She looked at an ad in the breeze.

As she walked out the wind blew a gale.  
To the world she was headed for quail.  
For she had a skirt of the right.  
She dressed as she ought—  
In the same modest garb as a male.  
—R. K. R. Thornville.  
As she walked out the wind blew a gale.  
Said she: "I must tie on my veil;  
For if I don't, I shall be mad."

But you flew off at a tangent, raving  
of wailing of our Lib.  
Of going in to order to some furrier

Get down to brass tacks, William, do  
Not be in such a tiff.  
I'd wail that dollar rate  
May win that dollar rate.  
"Dear Melting Pot man, let me say  
I've rattled my brain till I'm gray  
I've wailed my dollar

## THINGS A MOTHER OUGHT TO KNOW

Mothers whose children are weak and run-down, who do not gain flesh and strength, who lack the rosy cheeks and bright eyes of healthy children, should remember that the safest tonic and body builder to give them is Father John's Medicine because it is a pure and whole some medicine free from alcohol or dangerous drugs. Thousands of mothers give it to their children whenever they become weakened or run-down.—Advertisement.

## Granville

Granville, O., Nov. 4.—Of unusual significance and of more than ordinary interest and enjoyment was the banquet given in the social rooms of the Baptist church, Friday evening in commemoration of the 86th anniversary of the Baptist Women's Missionary organization. Members of other church organizations who are related to the pioneer workers in the Baptist church, were special guests of the occasion and fifty at the long tables beautifully decorated with ivy, autumn berries and exquisitely tinted autumn leaves. The souvenirs were in the form of a four-page program and menu in an artistic cover of grey on the front of which was a striking portrait of the first president, Mrs. Sally Darrow, wife of Allen Darrow, at that time pastor of the church, and an influential man in the denomination.

Mrs. Robert Biggs, president of the organization, was toastmistress, and paid graceful tribute to the speakers on the program, as well as to several whose names did not appear. Mrs. J. G. Ewart, for twenty years president of the organization; Mrs. E. A. Read, a former president, who came from Springfield to attend the banquet, and Mrs. Fraker of Columbus, for many years the association director of mission work in Ohio. Mrs. Fraker spoke extemporaneously and dwelt on the place this organization holds in the estimation of other missionary societies throughout the state. She said that everywhere it is regarded as a model of efficiency. The first address was given by Mrs. Bismah Shepardson Orcutt, on "Our Day of Beginnings in 1830," tracing the relationships of those women who "worked the path" down to those now doing equally important work today. The descendant of the first president Mrs. Allen Darrow is Miss Josephine Darrow who lives here. Nearly a dozen others were called by name. The name of this first organization was the "Granville Female Missionary Society." Mrs. Julia Jones Watkins followed with "Those Days of the Sixties and Seventies," in which she mentioned the work of those who were dear to her, Mrs. Ralph Parsons, Mrs. F. Marsh, Mrs. Daniel Shepardson and others. Mrs. Kate Shindler Hines responded to, "The Young Ladies' Mission Band—A Reminiscence, 1879-1887," bringing to its treatment both wit and wisdom. A charming vocal selection by Mrs. Marion Rose Johnson accompanied by Mrs. Clark W. Chamberlain gave the needed variety and "My Task" by Ashjorel was feelingly sung by Mrs. Johnson. Mrs. A. K. Herriek spoke of the period between 1879-1902, when the interest in missions was revived and a new organization affected at the home of Mrs. Sheppard in North Pearl street. Mrs. C. E. Goodell to whose efforts the program owed much of its interest, closed the entertainment in an unusual and delightful way—her topic being "Past and Present Through the Stereopticon." In her talk no one was overlooked who ever had contributed to the work of this organization, and she even read greetings and congratulations received from several non-resident members of the church; former pastor J. A. Fernald, Mrs. Fernald, Dr. W. C. P. Rhoades and others. Prof. Coons then took charge of proceedings and by means of the "Convertible Ballypion opaque reflector" which had been carried from Science Hall, he threw upon the screen picture after picture, in rapid succession. Old records; pages from old secretaries' books, one of the oldest of which was borrowed from Mrs. E. J. Dorsey for the occasion; beautiful old daguerotypes in exquisite cases. Mrs. Darrow, Mrs. Summitt, Miss Jane Sineutt and others; descending in chronological order to those of more modern times, with a characteristic description and introduction of each by Mrs. Goodell.

The anniversary program committee was composed of Mrs. C. E. Goodell, chairman, Mrs. E. S. Orcutt, Mrs. C. J. Rose.

The banquet committee: Miss Martha McCue, chairman, Miss Rose Rugg, Mrs. G. A. Beers.

Decorating committee: Miss Howland, chairman, Misses Laura Herriek, Maude Cochran, Gladys Spencer.

Mr. J. R. Davies of Newark was present at the anniversary banquet last evening and was called upon for remarks, which he made briefly and to the point.

Mrs. E. A. Read of Springfield, a former resident of Granville, is visiting at the home of Mrs. B. F. Griffith in North Mulberry street for a few days.

President C. W. Chamberlain will be in Cincinnati Monday, Nov. 6, where he is scheduled to speak before the Baptist ministers conference to be held in the Y. M. C. A. building.

The first entertainment to be offered under the auspices of the library association occurs this evening at 7:30 in the opera house. This moving picture will show the process of converting raw ore into the steel product, and is of absorbing interest. A nominal fee of 5 cents will be taken to defray the expense of actual production.

These entertainments will be given twice a month, with various out of town speakers as well as Denison professors on the program.

The Denisonian says that the first Carnegie medal ever awarded a student of Denison university will be received by C. A. Metcalf, Jr., as a result of his rescue on August 11, 1914, of a boy from drowning in the waters of Lake Erie. After two years of investigation, the Carnegie commission has decided upon the award of a bronze medal and a sum of money, as Mr. Metcalf was informed in a letter received last Monday. Through the efforts of the officials of the Toledo Y. M. C. A., the attention of the Carnegie commission was drawn to the episode and after a long period of gathering evidence it has been decided that he act is worthy of the most coveted of trophies—the Carnegie medal for heroism.

**Some One to Care.**  
Coming home on the train last night I saw a pleasing scene from the car window. A little girl stood at the railroad station with an umbrella. It was raining hard. When the train stopped she looked eagerly up and down and then ran to meet a young woman. The child lifted the umbrella protectively over the woman and looked admiringly in her face.

It set me to thinking. After all, the main thing that we need in life is some one to care. As long as there is some one awaiting our homecoming, eager to welcome us and make us comfortable, we can keep up courage.

It is our duty to ourselves to gather around us a family or friends. Those who care are staffs to lean on, magnets to draw us away from temptation, balsams to heal our wounds and buoys to keep us from sinking.

We need all the friends we can make and hold.—Shirley in Farm Life.

**An Ideal System of Law.**  
The law, so far as it depends on learning, is indeed, as it has been called, the government of the living by the dead. To a very considerable extent, no doubt, it is inevitable that the living should be so governed. The past gives us a vocabulary and fixes the limits of our imagination; we cannot get away from it. There is, too, a peculiar logical pleasure in making manifest the continuity between what we are doing and what has been done before. But the present has a right to govern itself so far as it can, and it ought always to be remembered that historic continuity with the past is not a duty; it is only a necessity.

I hope that the time is coming when this thought will bear fruit. An ideal system of law should draw its postulates and its legislative justification from science.—Oliver Wendell Holmes.

**Whistler Before Whistler.**  
Mottimer Menpes told the following story of Whistler, who was to deliver an address one day to the Society of British Artists: "The master at length entered, faultlessly dressed, walking with a swinging, jaunty step, evidently quite delighted with himself and the world in general. He passed down the gallery, ignoring the assembled members, and walked up to his own picture. And there he stayed for quite fifteen minutes, regarding it with a satisfied expression, stepping now backward, now forward, canting his head and dusting the surface of the glass with a silk pocket handkerchief. We watched him open mouthed. Suddenly he turned round, beamed upon us and uttered but two words—'Bravo, Jimmy!'—then took my arm and hurried me out of the gallery, 'talking volubly the while.'"

**The Horns of Venus.**  
References are made in some conel-form literature to the "horns of Venus," from which it is concluded by some that in the clear air of Mesopotamia the crescent form of the planet was detected in early times without optical aid. Since Venus, when at a sufficient angular distance from the sun not to be lost in the glare of the latter, is hardly more than half a minute of arc in diameter at the utmost, such an observation seems quite out of the question, and Professor Campbell thinks the allusion to the horns was merely a lucky guess on the part of the ancient astronomers.

**Magnesia and Grease Spots.**  
Magnesia will take grease spots out of carpets and rugs. Get a block of it from the drugstore for five cents. Scrape it with a knife into fine powder and lay this on the grease spot, covering it entirely. Rub it in a little and let it stand overnight. Remove it the next day with a clean wash broom and the spot will be gone.

**Their Money's Worth.**  
"You make a lot of unnecessary motions," argued the efficiency expert. "You can't standardize my business, old top," retorted the soda dispenser. "People like to have you go through a lot of motions when you are mixing a fancy drink."—Louisville Courier Journal.

Don't indulge in a half-hearted kick. Put your whole soul into it.

# Colds Coughs Catarrh PERUNA CONQUERS

A trinity of evils, closely allied, that afflict most people, and which follow one on the other, in the order named, until the last one is spread through the system, leading to many evils. But their course can be checked. It is of great value when used promptly for a cold, usually checking it and overcoming it in a few days. Ample evidence has proved that it is even of more value in overcoming chronic catarrh, dispelling the inflammatory conditions, enabling the diseased membranes to perform their natural functions, and toning up the entire system. The experience of thousands is a safe guide to what it may be expected to do for you. Liquid or tablets—both tested by the public and approved. THE PERUNA COMPANY COLUMBUS, OHIO

## What Ohio Club Women Are Doing

Mrs. Prentice E. Rood, Director of Press.

Mrs. George Zimmerman, president of the Ohio Federation of Women's Clubs, was the guest of honor in Toledo at the luncheon given by the Ursula Wolcott chapter, Daughter of the American Revolution celebrating the birthday of Ursula Wolcott.

Mrs. Zimmerman is past regent of the Colonel George Croghan chapter of Fremont.

**Convention Report Ready.**  
At an early date the complete report of the Dayton convention will be ready for distribution. This year book will be sent to all officers, to all chairmen and departments and standing committees and to each federated club and city federation.

Club members desiring copies must send application at once to Mrs. Charles H. Halter, Fremont. A limited number of the Toledo convention report also may be had. The price of each is 25 cents.

It is important that presidents of clubs and federations understand that this year book is the property of their organizations, to be passed on with other important club documents. One copy, to the interest and benefit of the clubwomen, might be placed in the public library.

**College Extension Lectures.**  
Oberlin has arranged a list of extension lectures for the convenience of schools, clubs and societies. For full information write Professor P. D. Sherman, 25 College Place, Oberlin, Ohio.

**Women's Week.**  
The Toledo Woman's association inaugurated Women's Week Wednesday, November first. This unique event which is to be an annual affair was opened by regular monthly luncheon of members.

The large assembly hall at the Woman's Building was artistically decorated in rose and gray. Some forty local women, engaged in business, displayed their exhibits on tables arranged in a continuous circle around the room.

Style shows, displaying costumes appropriate to every occasion were the feature of each afternoon. One most interesting exhibit was that in which a number of young women in old-fashioned costumes contrasted with others in up-to-the-minute gowns and hats.

**Shop Early.**  
Now is the time for all clubwomen

to plan a campaign of education to induce the public to shop early. Let us do all in our power that those who serve us may not look upon the Christmas season as one full of agonizing toil. The Golden Rule would be a fine thought to keep in mind from now until December twenty-fifth.

**A Suggestion.**  
Have your district vice-president come to your town and meet all your clubwomen. Such a meeting will be a reciprocal benefit. You would of course expect to pay her traveling expenses, since the work of all state officers is one of love and loyalty and not in the slightest degree remunerative.

**A Convention Memory.**  
One of the most interesting events of the convention was the visit to the Montgomery County Children's Home as the guests of the Advance Club.

**Rheumatism Follows Exposure.**  
In the rain all day is generally followed by painful twinges of rheumatism or neuralgia. Sloan's Liniment will give you quick relief and prevent the twinges from becoming torture. It quickly penetrates without rubbing and soothes the sore and aching joints. For sore, stiff, exhausted muscles that ache and throb from overwork, Sloan's Liniment affords quick relief. Bruises, sprains, strains and other minor injuries to children are quickly soothed by Sloan's Liniment. Get a bottle today at your Druggists, 25c.—Advertisement.

## Candidate For Sheriff Addresses Licking Co. Voters

To the Voters of Licking County:

I take the liberty to write you regarding my candidacy for Sheriff, and in this way solicit your consideration and support for this very important office at the election to be held on November 7th.

You probably remember that I was a candidate for this office two years ago, and was defeated by 114 votes. Although defeated by this small margin in the entire county, it is very gratifying to know that I did not suffer where the voters knew me best.

I have lived in Monroe township for 20 years and have been in business for 12 years and in this time have had innumerable business transactions with my neighbors.

It is also very gratifying to know that the citizens in the precinct where I have lived for the last 20 years gave me the magnificent support that I received.

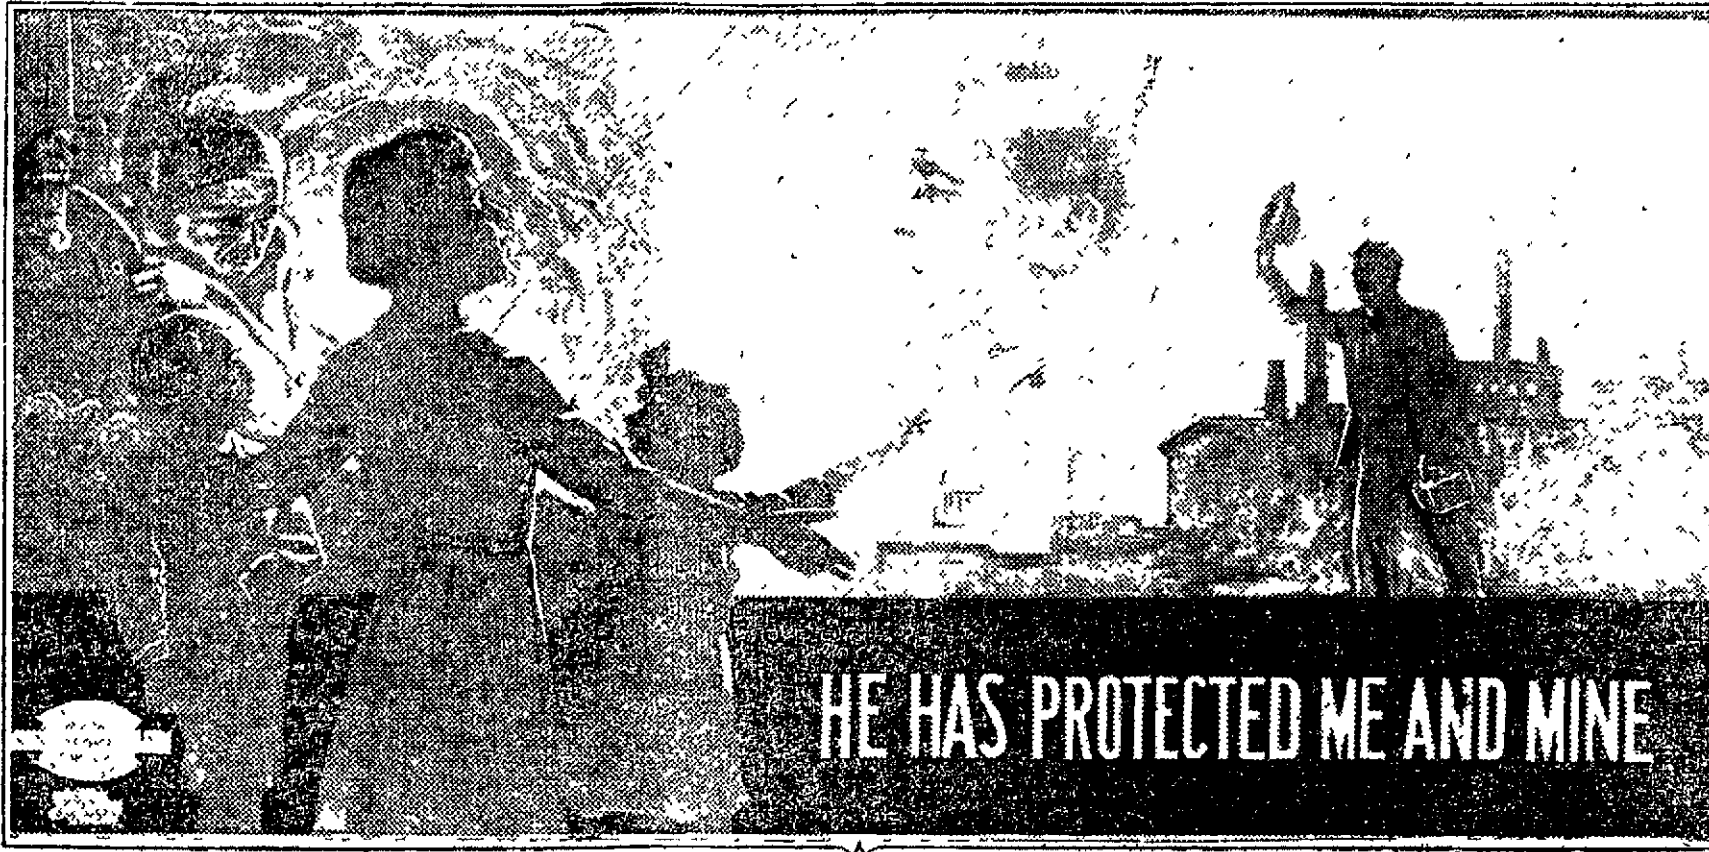

In the face of rumors that were heralded broadcast throughout the county prior to the election of 1914 that it was very doubtful whether I would carry my home precinct, I desire to here present an analysis of the results of that election. This can be verified by the files of the newspapers of about November 10, 1914.

Cox, for Gov. D. 230 Willis, R. 250 Willis's maj. 20  
Greenlund, L. Gov. D. 231 Arnold, R. 212 Greenlund's maj. 19

Brennan, State Treas. D. 235 Archer, R. 205 Brennan's maj. 30  
PATTON, D. Sheriff. 375 Swank, R. 116 Patton's maj. 259

Trusting you will give me at least your earnest consideration and thanking you for any favor you may give me, I remain,

Yours respectfully,

*R. L. Patton*

This poster, appearing on billboards in many cities of the United States, expresses graphically the appeal that Woodrow Wilson's administration has made to the working men of America. What stronger appeal can there be than the service Woodrow Wilson has performed that saves this man's family from the brutalities of militarism and enables him to be working instead of fighting in a needless war that would have saved no lives and that would have accomplished nothing for the honor of the United States or for the welfare of humanity?

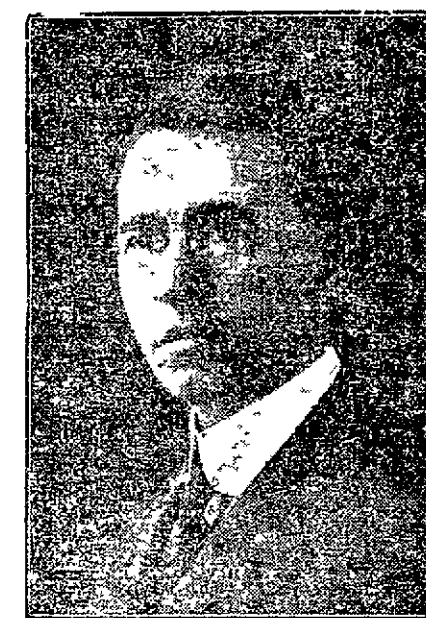

## FLORY FOR PROSECUTOR

CHARLES L. FLORY.

Charles L. Flory, member of the Newark law firm of Flory & Flory, has had fifteen years of active practice and is the Democratic candidate for prosecuting attorney of Licking County. He has never been a candidate for public office.

FOR COUNTY TREASURER  
Second Term.

Vote For  
WILL H. MILES

In November 1914 Will H. Miles was chosen by the voters of Licking county to be county treasurer for a term of two years and on the record he has made in those two years he now seeks re-election for a second term.

He was born and reared on a Licking county farm in Mary Ann township. He was educated in the schools of the county being a graduate of the Hanover high school.

For a number of years he taught in the rural schools and later served as Superintendent of the St. Louisville schools. His experience as farmer, teacher, business man, combined with his knowledge of the office of county treasurer qualifies him for the duties of the office, beyond all competition.

If Will H. Miles is chosen by the vote of the county to be treasurer for a second term, the taxpayers are assured of the same courteous treatment and high class service that has always distinguished this office.

By honest work and strict attention to duty Miles has placed himself in the position he now occupies. He is no experiment. If efficiency is any consideration vote for Miles and make no mistake.

## FRANK DUDGEON'S CLEAN RECORD AS A GOOD CITIZEN

Frank B. Dudgeon candidate for county recorder on the Democratic ticket, was born and reared in Licking county and has resided here all his life. He made an energetic, clean fight for the nomination and has pursued similar methods in his campaign for election. His worth and ability can be vouched for by his neighbors and friends who are well acquainted with his struggles in early life. He has been a successful farmer and a popular school teacher.

Frank Dudgeon is a citizen of worth and his election to the office of county recorder would place in that important post a man who would discharge the duties thereof in a manner satisfactory to every citizen. The ability of Mr. Dudgeon to successfully handle the affairs of that office can best be compared with the diligence with which he has transacted his various duties as a former infirmity director, secretary of the Licking County Agricultural society and other clerical positions. He is a hard worker and will win the approval of all citizens for his conduct of the office of county recorder.

Mr. Dudgeon's strongest boosters are his neighbors, which is truly an indication that he is worthy and a man in whom the confidence of the people of Licking county can be placed. As an incumbent of the office which he seeks his record would be unimpeachable and the voters of this county have a candidate who measures up to this high conception of duty and who is amply equipped for the clerical duties which will be required of him.

## CORRECTION

The voters will not be fooled by the false and misleading statements published in The Advocate of October 21st in which it is claimed that Robbins Hunter is a candidate for second term.

The voters well know that Robbins Hunter made his campaign four years ago solely upon the claim made by him that he was then a candidate for his second term, and upon his personal promise made to leading Democrats that if elected in 1912, he would not again be a candidate.

In 1912 Mr. Hunter published in the newspapers and on cards the following language: "I am NOW a candidate for my SECOND TERM. I was elected by the people and am NOW holding the office by virtue of this election as my FIRST ELECTIVE TERM."

He was that that elected the second time, and his second elective term will expire in February, 1917.

How many second terms, in succession, can one man have for the same office?

## Railroads

A New Department.

Through the establishment of a Commercial Development department as an important branch of its traffic organization, the management of the B. & O. Railroad System has inaugurated a policy by which it is intended to bring producers and consumers of manufactured articles and foodstuffs in its territory as well as in outside markets into closer business relationship with one another along lines mutually beneficial while creating a larger volume of traffic for its facilities that have been expanded to so great an extent of recent years.

The new department, which was created with the recent rearrangement of the executive jurisdiction, is in accordance with the plan outlined by President Daniel Willard in his address to the official staff of the company at Deer Park last summer.

Enlarge Freight Yards.

The freight yards of the B. & O. Railroad System at Garrett, Ind., on the Chicago line, are to be enlarged to increase the capacity of eight tracks in the westbound yard and four tracks in the eastbound yard to 100 cars each. Work on the improvement has been started. It will cost approximately \$75,000.

### A GOOD RECORD ORVILLE KIGER COMMISSIONER

It Is the Logical Thing That He Should in the Running For a Re-election.

The offering of Mr. Orville Kiger for a second term as county commissioner is one of the strong features of an exceptionally good Republican ticket.  
Mr. Kiger won before by sheer personality and strength of character. The present board of commissioners, not unprogressive, has been one of the more economical and efficient boards in the history of the county. The influence of Mr. Kiger is a recognizable quantity in the policy of the passing board. In addition Mr. Kiger is a good type of the American citizen, self-made and self-educated. He has made his way as an individual.

Mr. Kiger, though far from being a wealthy man has been successful in diversified business and carries the methods of industry and honesty into all his public acts. Indeed he considers a public office a public trust. He has been a resident of the state of Ohio for 25 years and the most of that time a resident of Licking county. He has been eminently successful in the timber business, farming, stock breeding and dairying. All that he has is invested in Licking county and he is interested deeply in its roads and bridges of the county.  
Mr. Kiger is one of the representative men of the county and with his two-years' record of faithful public service is worthy and well worthy of the support of every voter in Licking county. His experience and views are broad and he has the courage of his conviction.

### REES FOR RECORDER

Jesse T. Rees, candidate for County Recorder on the Republican ticket carried every precinct in the city for the nomination, but three. This speaks for itself. Mr. Rees has always lived in Licking county and has charge of the busheling department at Roe Emerson's, but for the past five weeks has been making an active campaign in the county and city. Mr. Rees, if elected, will give Licking county clean cut service. All support for him will be appreciated.

### Mr. Voter

The names of all candidates for Probate Judge will appear on the same separate non-partisan judicial ticket. The term is FOUR YEARS and the salary is \$2000 per year. If elected I will not be a candidate to succeed myself. If record and attitude toward public welfare and associations and efforts meet with your approval and if you think I am the kind of a man to be elected to the office that is closest to home and humanity, say so on all prejudice and vote accordingly.  
Yours Truly,  
**Andrew S. Mitchell**

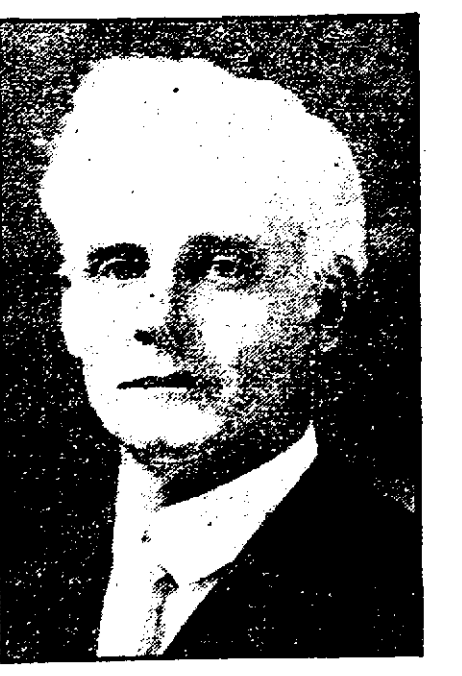

**CHARLES E. GREEN.**  
Republican candidate for County Commissioner. Your vote and influence solicited. Election Nov. 7, 1916.

HE IS FOR YOU! ARE YOU FOR HIM?

Member Farm Societies—County Grange, State Horticultural Association, County Agricultural Society, State Poultry Association.  
Member Fraternal Orders—Masons, Knights of Pythias, Modern Woodmen of America, Knights of the Maccabees.  
Men are usually judged by what they do. Thomas E. Adams is a candidate for County Treasurer, and to those who may not know him personally, the following can be said of him:  
Mr. Adams has been a resident of Licking county nearly all his life. He received his education in the country and city schools of Licking County, finishing with a business course in a commercial college.  
He has been actively engaged in agricultural pursuits, and his services are sought by Agricultural Societies as an expert judge of farm products by the surrounding counties. The Ohio State Board of Agriculture has appointed him each year for ten years under different administrations as Superintendent of the Agricultural Department on account of his ability along this line of work.  
He has, on several occasions, installed agricultural exhibits for the state at Cleveland, Toledo, Columbus and Chicago, Ill., and secured exhibits for the state for the Jamestown Exposition, Texas Live Stock Show and the Panama Industrial Exposition. A large number of these exhibits came from Licking county, thus boosting this county as a county of quality on farm products.  
He was president of the Licking County Agricultural Board last year, and was the first secretary of the Licking County Corn Association. It was largely due to his painstaking efforts in this connection that Licking County won the Silver Trophy Cup the second time for the best county corn in the state.  
He has been secretary and superintendent of our County Poultry Association, president pro-tem and member of the Newark City Council, having been elected from the Fifth Ward of said city. In addition to his ward duties in this capacity, he has been active in securing the rest rooms and comfort stations in the county court house. In beautifying the Court House Park, in securing a \$500 donation for the Public Library, and many other matters of public interest and benefit too numerous to mention.  
Your vote for THOMAS E. ADAMS will be appreciated, and if elected, he will give the public careful, courteous and efficient attention. As a member of the County Budget Commission, township levies and assessments will receive attention to the end that fewer taxpayers will be paying their taxes under protest.

## Newbro's Herpicide

Aids Nature and Keeps the Scalp Clean From Dandruff

Reasonable care and effort are all that are required to enable almost any woman to have good hair. When the hair falls out and is stringy, uneven, dry, brittle and generally unsightly, the condition is nearly always due to dandruff.

Before the hair will grow naturally and luxuriantly, the scale-like accumulation must be removed and the dandruff eradicated. That is what Newbro's Herpicide does. It is an aid to nature. Herpicide keeps the scalp clean, adds a softness and luster to the hair which indicates health. It not only prevents the hair from falling out but causes it to become one of woman's greatest charms.

Beautiful hair and lots of it may be the reward of every woman willing to devote a little personal effort to the use of the First and Original Germ-Remedy for Dandruff. Herpicide stops itching of the scalp. It has an exquisite odor.

You can obtain a trial size bottle and booklet telling all about the hair by sending ten cents in postage or silver to The Herpicide Co., Dept. S, Detroit, Mich.

Your dealer sells Herpicide in two sizes, 50 cents and \$1.00, and guarantees satisfactory results or money refunded. Insist upon having genuine Herpicide and not some "off brand" said to be "just as good" preparation. The substitute costs you just as much as the real article. Why take chances?

Herpicide applications obtained at the better barber shops and hair dressing parlors.

siasm wherever he spoke, his meet-  
ings being crowded. Everyone pre-  
dicted that President Woodrow Wil-  
son would carry the state by one of  
the largest pluralities ever given a  
presidential candidate.

a special Pullman car which came  
direct through to Newark. Part of  
the company of twenty-two people  
are stopping at the Warden and part  
at the Arcade Hotel. They will pro-  
duce the "Melting of Molly" at the  
Auditorium tonight. It is one of the  
big things of the season and no  
doubt will play to a good business.

**Splendid Rain.**  
There was a heavy downpour of  
rain this morning which started at  
about five o'clock and continued for  
an hour. The rain was accompanied  
with thunder and lightning, it at-

most being a pretentious electrical  
storm. The rain will do a vast  
amount of good, especially to wheat,  
and was badly needed by farmers  
and stock raisers as ponds and wells  
were almost dry.

**Removed to Home.**  
Mrs. Charles Warden, today was  
removed in Bazler's ambulance from  
the Arcade hotel to her home in the

**CLEVELAND STREET  
LIGHTS TO ANNOUNCE  
PRESIDENTIAL WINNER**

(ASSOCIATED PRESS TELEGRAM)  
Cleveland, Nov. 4.—The result of  
the presidential election will be  
flashed by the electric street lights  
all over Cleveland on Tuesday night.  
Public Service Director Bernstein an-  
nounced today that he will arrange  
with the light company to dim the  
lights four times to indicate the elec-  
tion of Hughes, or five times for that  
of Wilson. Three flashes of the  
lights at midnight will indicate that  
the result still is undecided. The  
light company will receive the re-  
turns from the newspapers.

**RUMANIANS ADVANCE.**  
(ASSOCIATED PRESS TELEGRAM)  
Bucharest, Nov. 4, via London.—  
The war office announced today that  
Rumanian troops have advanced to  
the west of Buzeu stream and also  
at Table Butzi on the Transylvanian  
front. West of the Jini the pursuit  
of the Austro-German force contin-  
ues. There has been a battle along  
the Danube.

**STEAMER RESISTS ATTACK.**  
(ASSOCIATED PRESS TELEGRAM)  
Toulon, Nov. 4, via London. 11:55  
A. M.—The French liner Doukala  
reports an attack upon her by a sub-  
marine which she beat off after a  
fight lasting three-quarters of an  
hour, conducted at a range of 6000  
yards. The submarine is said to have  
fired seven shells.

**BATTLESHIP DAMAGED.**  
(ASSOCIATED PRESS TELEGRAM)  
Berlin, Nov. 4.—(Via wireless to  
Saville).—It is reported unofficially  
that the Russian battleship Sevasto-  
pol struck a mine several days ago  
and was badly damaged.

**That Three Mile Limit.**  
The origin of the "three mile limit,"  
the imaginary line three miles from  
the shore, which fixes the territorial wa-  
ters of a sovereign state, is somewhat  
of a mystery. One explanation and the  
one usually accepted is that when it  
was agreed on by the nations three  
miles was the limit of range of the big  
guns of that time. If that were so and  
a proposal was put forward to revise  
the territorial limits in agreement with  
the effective range of modern artillery  
there would be a big shrinkage of the  
"high seas." France could claim juris-  
diction from Calais to Dover and Eng-  
land from Dover to Calais, which  
would be awkward, while little of the  
Mediterranean would remain interna-  
tional waters with fifteen inch guns on  
Italy's "big toe" and on the many is-  
lands dotted about the middle sea.—  
London Opinion.

**Easy if You Know How.**  
Burned out electric lamps can be re-  
newed by this simple method:  
File off the tip carefully so that the  
filament does not crack. With a pair of  
tweezers twist the broken filament to-  
gether. Obtain from the druggist a  
piece of yellow phosphorus for 5 or 10  
cents. Insert a piece of it, about half  
the size of a pea, in the bulb. Cauti-  
ously heat the top of the globe by  
means of a Bunsen burner and melt a  
piece of chemical glass over the hole,  
closing it completely.  
The phosphorus unites with the oxy-  
gen in the bulb to form phosphorus  
trioxide, a cloudy substance, which  
will settle in a few days. The globe is  
now filled with nitrogen. The greatest  
caution must be exercised in the use  
of the phosphorus. It must be han-  
dled under water entirely and with  
tweezers. Do not touch it.—Popular  
Science Monthly.

**A PIPE ORGAN  
IS INSTALLED  
IN AUDITORIUM**

Ira Edward Marsh, the well known piano tuner and inventor, who has achieved considerable fame as a mechanical genius, is installing a synchroanal piano pipe organ in the Auditorium theatre.

The organ built expressly for Manager Geo. M. Feenberg, has 114 pipes and 30 orchestra bells. It is also equipped with the vox humana, and is undoubtedly one of the finest instruments of its kind, which has ever been installed in a theatre.

Mr. Marsh, who resides in Union street, has a nicely equipped work-shop, where he has built two of these instruments, the Auditorium organ, however, being on a much larger scale than the first one. The organ can be attached to a piano and operated by a pianist, either in conjunction with that instrument or by itself. Patents have been applied for and it is said that as soon as granted a local company will be organized and a factory built to manufacture the organs on a large scale.

Already the Marsh instrument has attracted the attention of musical dealers in several of the larger cities and a number have called upon the inventor in reference to marketing the organ. It is the first of its kind which can be attached and operated with a piano.

A special pit has been made at the Auditorium and the instrument lowered so that it is only a few inches higher than the stage. It stands alongside the piano and occupies about one-fourth of the orchestra pit. The pianist plays any score upon the organ from the piano keyboard, playing both the piano and organ at the same time or either one singly, changing instantaneously.

The pipe organ has been much used in conjunction with choral music to enhance broad harmonies; lately it has been applied also to the elaborate imitation of orchestral music and has remained the distinctively church instrument, although it is now finding its way into picture theatres over the entire country. The Marsh instrument will widen the field and if it can be manufactured on a broad basis it will only be a question of time until they are found in every theatre in almost any city in the country.

The Marsh organ consists essentially of three mechanical systems, the compressed air supply, the pipe work, including the entire sounding apparatus and the action, the mechanism by which the player controls the whole. The "wind" supply, or rather compressed air, includes a large feeder or which should more properly be designated, as a hollow, which rests on the bottom of the cabinet and there is a smaller one above, both being operated by an electric motor, which rests on the bottom of the cabinet. A uniform distributing system admits the air into the different valves through which it goes into the different pipes. There are press buttons for the digitalis of the keyboard which are operated by the musician, these taking the place of the stops or registers, which produce different effects used in motion pictures, such as a steamboat whistle, the clanging locomotive bell, the swish of wind, the roar of the waves and numerous other effects, the whole being very realistic in the hands of an accomplished musician.

Manager Feenberg, himself an expert pianist, will give a demonstration with the new instrument Sunday morning. Mr. Marsh will be present to explain the working features and with the house orchestra a special musical program will be given Sunday afternoon and evening.

**A Ballet Averted a Revolution.**  
When Bonaparte put the Duke d'Enghien to death all Paris felt so much horror at the event that the throne of the tyrant trembled under him. Sir John Sinclair wrote. A counter revolution was expected and would most probably have taken place had not Bonaparte ordered a new ballet to be brought out with the utmost splendor at the opera.

The subject he pitched upon was "Ossian, or the Bards." It is still recollected in Paris as perhaps the grandest spectacle that had ever been exhibited there.

The consequence was that the murder of the Duke d'Enghien was totally forgotten and nothing but the new ballet was talked of.

**Her Gilded Gown.**  
During the reign of King George I. Lord Hervey, a cultured man, gave this description of the fine dress of a distinguished woman:

"The Duchess of Queensberry's clothes pleased me most. They were white satin embroidered, the bottom of the petticoat brown hills, covered with all sorts of weeds, and every breadth had an old stump of a tree that ran up almost to the top of the petticoat, broken and ragged and worked with brown chenille, round which twined nasturtiums, ivy, honeysuckles, periwinkles, convolvuluses and all sorts of twining vines, which spread and covered the petticoat. Many of the leaves were finished in gold, and part of the stumps of the trees looked like the gilding of the sun."

## J. Henry Miller Candidate for Ohio State Senate Makes A Statement to the Voters

J. Henry Miller, Democratic candidate for State Senator said today: "If the voters of this district elect me to the important office of State Senator, my sole purpose shall be to serve the highest interests of my whole constituency to the very best of my ability. I am not expecting to make a time-light record by urging the passage of a multitude of new laws. Greater care should be given those that are already passed to make them really worthy laws. "As to my ability and fitness for the office I shall leave it with my friends to be judge. Inquire of them. What I would say of myself would mean little to you. It may not be possible for every man to make a brilliant record as a legislator, but every man can make an honorable record and this I covet. "In the closing days of the campaign I desire to emphatically re-affirm what I have heretofore said, and that is: THERE HAS NOT BEEN NOR WILL THERE BE ANY TRICKS, TAINTED DEALS OR ROORBACKS PRACTICED BY ME."

J. HENRY MILLER.

## LET'S MAKE IT UNANIMOUS FOR W. A. ASHBROOK.

A. H. Thompson, one of the most influential and best known citizens of Coshocton county, and a member of the Republican party, had the following letter published in the Coshocton Times-Age this week. The civil war veterans are indignant over the attacks that have been made on Mr. Ashbrook by several of the party organs. Mr. Thompson's letter follows:

Let's Make It Unanimous For William A. Ashbrook, November 7. He who has done so much to help supply the need and the hungry at the proper time when all foods and necessities of life are soaring skyward. The veterans' widows who pray for a blessing on him who in their distress came to their rescue as a harbinger of comfort in their old age. Throw politics to the winds and help him who has become the widows' stay.

Many widows have told the subscriber, "I only wish I had a vote to cast for Mr. Ashbrook." Mr. Ashbrook has been at a great expense in forwarding the interests of the veterans' widows, who by the thousands from all over the United States are rushing their applications to him. At his own expense he has had five clerks working like beavers, and himself, too, with the exception of a short visit to his family. No matter, if Democrat, Republican or Socialist, let us all put our shoulders to the wheel and boost November.

A. H. THOMPSON, Republican.

## CHICKENS LOSE LIVES WHEN COOP GOES UP IN SMOKE

Fire of an unknown origin early last evening destroyed a shed used for storage and a chicken coop in the rear of the home of Mrs. Henry Jones, 247 Boylston avenue. Six chickens were reported lost in the flames. The central ladder truck and the east end fire company responded to the alarm.

The man who drove the new fire truck to Newark Thursday was at the east end station when the alarm was turned in and made a run to the fire in the new truck.

The west end fire company at 12:15 this morning responded to a still alarm to Union street and Burt avenue, where a grass fire was raging in the Ohio canal bed. The fire was extinguished with little trouble.

## NOTICE TO PUBLIC

By Licking County Life Underwriters Association—Be Sure to Heed This Warning.

The out-of-town representatives of a Western Life Insurance Company are operating in Newark and Licking County, and grossly misrepresenting their contracts of insurance to the public. Their working slogan seems to be "anything to get the business and get away with it," and they don't live in Licking County and can not be held accountable in the future for their misstatements.

Here is a sample of the misstatement: In one specific instance they quoted a whole life rate to a prospective purchaser and represented it to him that the policy would mature in sixteen years. Such statement as this is absolutely untrue, and had it not been that a local insurance solicitor called upon the same man the out-of-towner would have got the application, and great disappointment would have been in store for the insured in the future, and a straightforward life insurance man would have been discredited.

## Policeman Aids In Returning Dog to Mr. Lippincott

Frank Lippincott, stage manager at the Auditorium, complained to Chief Sheridan last night that Ed Reed, the man who challenged Paul Bowser, Thursday night, had stolen Lippincott's bull pup and was holding it in a basement of a South Second street business place.

The chief refused to take any action in the matter until an affidavit had been filed against Reed. Mr. Lippincott left the patrol station and a short time later met Officer Williams, who accompanied him to the place in Second street.

There the police say the dog belonging to Mr. Lippincott was found, but Reed denied he had stolen the dog, saying it was given to him by a man on the street. Later, police say, Reed said he had found the dog on the street and had taken it with him to the place in South Second street. At noon today no affidavit had been filed against Reed.

## Pay No Attention to Eleventh Hour Attack On Miller

Editor of The Advocate: J. Henry Miller who is the Democratic candidate for state senator should be triumphantly elected. He is a Licking county product, a college graduate, a forcible speaker, a gentleman of clean habits, honorable to the last degree and always has been. He is a square fighter and as his friends and opponents both know and admit, the resorts to no tricks nor eleventh hour questionable methods, and he is at this time especially requesting his friends to place no reliance in any eleventh hour insinuations being circulated against him. He is standing squarely on his record, which is clean in every respect.

A Licking County Friend.

## MANAGER FORM OF GOVERNMENT TO BE DISCUSSED.

A number of men of the city have, during the last few months, been quietly agitating the question of submitting the matter of a new form of city government to the citizens. The form at present adopted and successfully employed in the government of Dayton and Springfield, seeming to be the most popular, Mr. Stewart L. Tatum, a prominent lawyer and chairman of the Charter Commission of Springfield, has been invited to address the citizens of Newark on the subject and has accepted the invitation.

Thursday evening at 7:30 in the High school auditorium, Mr. Tatum will explain in detail the operation of the City Manager plan of government as Springfield has employed it, what features of improvement have been experienced, its shortcomings and the further improvements that might be made. Mr. Tatum is a pleasing speaker, is considered one of the highest authorities on the subject. This is a matter that should interest every person living in Newark. The tax rate for the coming year is going to be the maximum next month, viz \$1.50 per \$100.

There will be no charge for admission and every one is invited to attend this meeting.

## The TEMPERANCE WORKER

Every bottle of "Consumers" deserves decoration with the white ribbon of temperance. Rev. Dr. Parkhurst says: "I am decidedly of the opinion that the more beer and wine there is produced in this country, the smaller will be the amount of drunkenness."

Henry Watterson says: "The introduction of beer into America has done more for temperance than all the temperance societies and all prohibition laws combined."

Every bottle of "Consumers" is a missionary of that moderation which is the truest temperance.
